Project "EU partnership to protect agricultural land in the face of climate and environmental challenges. Caring for future generations"
(ProLand)

Program Erasmus+, KA220-HED - Cooperation partnerships in higher education
(2024-1-PL01-KA220-HED-000252809)

Project aims to increase awareness, knowledge, competence and develop management skills in the face of the impact of climate change on agriculture and the legal measures put in place to protect it by conducting a new interdisciplinary educational module among graduate students on quantitative and qualitative conservation of agricultural land towards environmental and climate challenges, strengthening teachers' competencies in this area and stimulating sensitivity to social responsibility.

OUR SOILS, OUR FOOD, OUR LIFE

ProLand brings together universities from Italy, Slovakia, Spain, Poland and Ukraine in educational activities in the field of quantitative and qualitative protection of agricultural land so that future generations can benefit from it.

Disclaimer: This project has been funded by the European Union. It reflects the views only of the authors and does not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

PROJECT DURATION:

36 MONTHS
(01.09.2024 – 31.08.2027)

BUDGET:

250 000,00 EUR

Main activities:

- preparation and conduct of educational module
- preparation of master theses
- conducting training sessions for teachers
- conduct university-wide educational activities (workshops) on World Soil Day
- creation of a virtual platform, a living laboratory for agricultural land conservation and a related smartphone application
- preparation of educational materials and dissemination of project issues
- organization of dissemination events

Project consortium:

- Università Roma Tre (Italy)
- Slovak University of Agriculture in Nitra (Slovakia)
- Universidad de Almeria (Spain)
- Poznań University of Life Sciences (Poland)
- Taras Shevchenko National University of Kyiv (Ukraine)

Current works:

- Summer School preparation (aims, agenda, content, methods, outcomes, etc.) at Slovak University of Agriculture in Nitra (Slovakia) - leader: Universidad de Almeria (Spain), September 22-26
- Roundtable preparation on the quantitative and qualitative protection of agricultural land - leader: Poznań University of Life Sciences (Poland), April 24
- Living Lab for Agricultural Land Conservation (LiLAC) activities related to the creation of database - current regulations, literature, statistical data, EU reports, ect.; study cases and Q&A; outcomes of students activities (proposals for decision trees, short information materials); substantive content, additional materials, links to external resources (libraries, public entities, NGOs, etc.), continuous activity

Our meetings:

- December 4, 2024 (kick off)
- February 19, 2025
- March 24, 2025
